my daughter loves it.

This is a great coloring book for my daughter. She loves how the coloring pages look and is happy

about it.

I have purchased a couple of Manga style coloring books and generally, the girl is the only thing on the page. Christopher Hart has published many how-to draw books on Manga and his expertise shows in the great designs. In this new book, Mr. Hart has set his girls in with design elements in the background. Sometimes flowers, sometimes jewels, buttons, leaves and other various elements. Its fun to have more to color and to have the cute manga girls in the foreground. For those who enjoy manga or even just like coloring sweet looking girls, this should be a really fun coloring book. Most of the designs are of the sweet younger style of girl while a couple are a bit more mature (in the sense of age and not of anything that might be considered inappropriate.) The designs are detailed but not overly intricate. The backgrounds are the most detailed part of the design as the elements are smaller and somewhat repetitive. This is what I found while coloring in this book and while testing my various coloring medium on the paper:

47 Manga Girl Designs with backgrounds  
Printed on one side of the page  
Paper is heavy weight, white, smooth and non-perforated  
Sewn Binding  
Almost all designs merge into the binding area but the area is background and you will not lose any essential portion of the design if you want to cut pages out. If you want to remove pages, I suggest removing several pages at a time by clipping the binding threads. This way, the designs can be removed in total without any loss at all.  
Book can be opened fairly flat for coloring by breaking the spine  
I still had switch the angle of the book several times to color the last bits and pieces near the binding.  
Alcohol-based markers bleed through the paper  
Water-based markers were mixed. Most did not bleed through but I found that Stabilo 88 markers did bleed through when I used dark colors.  
Gel pens and India ink pens did not bleed through the paper  
Coloring pencils worked okay. I was able to get good color and layered well. Blending was only okay with both oil and wax based pencils having a slightly waxy appearance when I used a blending pencil.

I like this book.... I want to like it more... I love maybe 4 pages and just wish there were more I LOVED

Summary: "Girls" contains 47 full size images and a page of introductory material. It measures approx. 8.5 x 11 inches and is sewn into a laminated cover. Featuring a variety of anime and manga line drawings, this book is appropriate for colorists 14 and up (there are some scantily clad women, so it might not be suitable for younger children).  
Paper: The paper in this book is bright white and fairly heavy (think light cardstock). All pages are single sided and non-perforated. All mediums

should be okay to use, but wet products may bleed through. As always, be sure to place several sheets of blotter paper under your current picture to prevent further color transfer. Artwork: As the title implies, this book focuses on a variety of anime and manga girls in different poses and settings. Inside you'll see animals, superheroes, athletes, fantasy, angels, fairies, and more. Every picture is illustrated with a full background and foreground, and the print quality is excellent. Some images are done portrait style with a head and shoulders, while others feature a full body. The majority of the pages are printed from edge to edge, so some of the artwork does go into the binding. If you choose to remove any pictures, a small portion may be lost. Detail level and line weight vary a bit throughout, and picture completion time should range from 3-8 hours (may be slightly different for each individual). Overall, this is a really fun book with lots of styles to choose from. It would be best suited to colorists who enjoy manga/anime artwork.

This is an adorable little book that distracts me when I am not colouring in another more complicated book. The pictures can be as complicated as you want, or as simple as you want. Here's a good rule if you want complicated, or shading. Pick three colours, let's go with green as our example? Light green, Medium Green, Dark Green. Colour the entire area you want to be green in the light green, then colour in the places that are darker and darkest (That you've decided should be darker) with the Medium Green, then with the Dark Green you colour the Darkest that you decided should be shaded that way. You can't go wrong with those rules, and that goes for pencils or markers, which I use different kinds of each for each book. Great for kids and adults. And Adorable to boot.

If you like the adult coloring books and anime. You are going to love this book. It's simple but there are some neat pics to color. Also gives you a better idea of how to draw some anime yourself. My 14 daughter absolutely fell in love.

I really enjoyed this coloring book! There are a lot of really cute pages and they're so much fun to fill in. The paper was also thick enough so that the ink didn't go straight through onto the other pages. Well worth the price!
