Kazuhiro Hara is the artist behind both the Log Horizon light novel series and its manga adaptation.

Mamare Touno is an author best known for his sci-fi light novel series, Log Horizon.

Note: I am forced to use 's scale but it's closer to a 3/5 on the Goodreads' scale. Not really much I can say about this one since the anime faithfully recreates the events that transpire in this light novel. "Game's End, Part 2" deals with the Adventurers finding out that there's a price to pay for immortality, the ongoing negotiations with Eastal, and the first large-scale battle against the armies of the Goblin King. Personally, I found the negotiations were one of the high-points of the story as they show us Shiroe's thoughts and schemes. He's my personal favourite of Log Horizon because while most other characters focus on the here and now, Shiroe's already thinking several steps ahead about what will or may happen and what to do about it. That's probably the reason why another high-point of the story for me was his application of the knowledge he's gathered so far to

create a new form of magic, one with consequences that will ripple into the next volumes I'm sure. If there is a low-point, it would be the author's continuous review of a MMORPG's rules and terminology, what slows down the reading. Also, Crusty's dealings with the Princess are not that engaging to be honest. As for the battle, while it certainly pays to read about it if you want to have a better understanding of what exactly is going on, its animated counterpart is the superior version. In short, my experience with the Log Horizon light novels so far is that they are a good read if you want a more detailed account of the events that transpired but they usually get bogged down by the MMORPG stuff, ironically enough. Not a whole lot has transpired since Shiroe's creation of the Round Table Council and it shows. My recommendation stands, watch the show first and then decide. As I understand it, the next volume rounds up Season 1 of the anime. Hopefully, things will pick up in that one.

Kyaaaaa!! I am in LOVE with this series. I don't even know what I can say without spoiling anything. The characters are amazing, the plot is full of surprises, and the developments are awe-inspiring at times. Shiroe is my hero, seriously! It's been a long time since I've fallen in such love with a series. Highly recommended!

It might have been me but I felt that the writing or mostly the translation went on a different route but I think it was because I read a translation of it by some fans. Overall it was a great reading as much or more information than the anime. I recommend reading the novel then the anime.

Got the book because I enjoyed the anime. I enjoy the fact that you get more details in the book that they just don't have time for in the anime. Good series of light novels.

This provided some additional insights to what was shown in the anime - which was helpful in the campaign against the goblins, not-so-much in the trade negotiations.

Love this series. Keep it up.

Great!
