Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

The publisher claims their map to be "updated regularly." The latest edition shows the date of November, 2014. But they definitely did not make a competent revision anytime recently. I travel to the Dominican Republic regularly and I know that there are two major highways that were opened prior to 2014. Neither of these highways are shown on this map. I expected more of National Geographic.

Seems like a beautiful map and well made. I don't know about the updates. I just wanted to warn buyers that I searched for "Haiti Map" and this came up as one of the options, but it ONLY a map of the DR and not of Haiti. I should have read the description more closely; nothing against the product itself...unless you hope to use it in Haiti.

Not up to date. At all.

Not detailed enough and outdated. There were many new highways in the region we visited that were not shown on the map.

Did not seem to be as recently updated as they advertised!

Not as detailed as I would have liked. We did better winging it with our GPS.

Using this to document my recent trip. Perfect map for my cut outs and makes me excited to make another trip. Very informative!

Wish there were a street by street version, but this would be perfect for a tourist!
