# Dragons Love Tacos 2: The Sequel

## Synopsis

The hilarious sequel to the smokin' hot New York Times best seller, perfect for story time  
News alert! It has just been discovered that there are NO MORE TACOS left anywhere in the world.  
This is a huge problem because, as you know, dragons love tacos. If only there was a way for the  
dragons to travel back in time, to before tacos went extinct. Then they could grab lots of tacos and  
bring them back! It's the perfect plan, as long as there's no spicy salsa. You  
remember what happened last time . . . The award-winning creators of Robo-Sauce and Secret  
Pizza Party return with a gut-bustingly hilarious companion to the bestselling phenomenon Dragons  
Love Tacos.

## Book Information

Series: Dragons Love Tacos

Grade Level: Kindergarten and up

## Customer Reviews

"As Rubin puts it, 'dragons love diapers. I mean, tacos. Dragons love tacos. / Heck, everyone loves  
tacos.' Most young readers, even those in diapers, would agree." [Kirkus Reviews](#)"This  
sequel's dialed-up energy and absurdity remain a tasty and very  
funny combination." [Publishers Weekly](#)"This zany companion promises to be as  
gut-bustingly ridiculous and yes-I'll-gladly-read-it-again-and-again entertaining as the  
first." [PopSugar](#)

Adam Rubin is the New York Times bestselling author of a half dozen critically acclaimed picture books including Secret Pizza Party and Robo-Sauce. He spent ten years working as a creative director in the advertising industry before leaving his day job to write full-time. Adam has a keen interest in improv comedy, camping, and magic tricks. He Lives in New York, New York. Daniel Salmieri is the New York Times bestselling illustrator of many fantastic picture books, including Secret Pizza Party and Robo-Sauce. He grew up in Brooklyn, New York, constantly drawing and painting images of ninja turtles, dinosaurs, and fighter jets (not in the same scene...), and graduated from the University of the Arts in Philadelphia. He lives in Brooklyn, New York.

My kids (and I) absolutely ADORED Dragons Love Tacos, so we pre-ordered the sequel. Boy, was it a bust. In the sequel, they summon a time machine to go back to Book 1. Many of the same illustrations, same jokes. My 3yo thinks it's the same book. My 5yo chuckled at the line about the diapers, but she didn't understand the concept of time travel -- and she wondered why the pictures were the same. It feels like this was an attempt to make money, and that's it. Overall, this is a truly disappointing sequel lacking the creativity and spunk that made the first one so spectacular. It kills me that this extremely talented children's book author/illustrator team would publish this garbage -- and that the people around them would tell them that's it's ok.

I purchased this book for my eight year-old nephew and he absolutely LOVED it. Thank you for embracing diversity through something as simple as tacos alongside amazingly awesome creatures like Dragons. Representation matters. I cannot tell you how wonderful it feels to have my nephew love a book because the main characters eat the types of foods he eats. Also, we both loved the last page where you paid homage to so many relevant pop culture/historical figures! GREAT BOOK!

The first book is my daughters all time favorite book. The first few weeks we had it years ago she was obsessed. Like always it's hard to follow up on a masterpiece and this book doesn't reach the greatness of the first. However a lot of people are saying they don't like it all or say it's too weird. I find my daughter still really likes this book and understands the time travel aspect decent enough. It is a little weird and all over the place but it still is great and worth your money. And again, the fact of the matter is my daughter and I get to laugh and enjoy reading together, and isn't that the point?

I've been eyeing this book for awhile now (and the plushie!!!) as the first one was SO GOOD. I was scared that this would disappoint. Not only was it as cute as the first one, it tied together with the

first one so well!!! Your kids will love it if they loved the first one. My boys favorite page so far (we just received it yesterday) is the last page with all the characters eating off the taco trees. How fun was that page to come up with!! am looking forward to some of your other books. The art is too cute and the writing is quirky and fun to read out loud.

to me this book didn't really NEED to exist, but my daughter (who is 5) loved the first one so much it was kind of a given to get her the second. We did read it several times, but it has been shelved since then and she doesn't love it as much as the first. For me it kind of has one joke, which it repeats a few times, though I admit the "tacos love dragons" page got a laugh even out of me.

My kids lover the original Dragons Love Tacos. This sequel was more just ok. Not quite as creative and the story doesn't flow as nicely. I'm not sad I bought it, but my kids would have been just as happy to borrow from the library. We've read the original a lot. A lot. This version has been read once and not requested again.

Loved the original "dragons love tacos" and I almost like this one better because it's sillier. If you do not have the original, you will to to read it before the sequel. #2 makes lots of references to the first book. My 3 year old daughter loves both books equally. You get the same nice graphics and even the same character as the first book. Wondering if they'll keep going and make a third one

Not as funny or intriguing as the first one. This idea, while novel, simply ran out of steam with the sequel. If there was any doubt, my grandchildren ask to be read the original when I start to read this one. Please don't do another sequel to this one. No mas.
