Synopsis

What if you just want to make her scream your name? Learn exactly how and more in this book! Sex is kind of like pizza - even when it's bad, it's still pretty good. But what if you could make it so that each pizza you had was like it was created in the heart of rustic Italy? That's what this book does for sex. The knowledge here will take your sexual encounters - be it with your wife, girlfriend, or just a random hookup - to the next level, and make it so that she can't help but beg for more, time after time. What will you learn inside this book? How females conceptualize sex differently from men - and how you can take advantage of it The best ways to stay harder and last longer for her The seven best positions for her pleasure - and yours Giving (and receiving) multiple orgasms How to get her to come around to anal pleasures An introduction to kink, fantasies, and sex toys - the more the merrier! How to have her screaming your name and begging for more, every time Intrigued yet? Wouldn't it be nice to become "that guy" that women talk about? To know that you have just given her an experience she will never forget, and never feel insecure about your performance again? All that with the best orgasms you've ever had, and the longest, most intense sessions...and send her into spasms? Listen to this book to decode the female body and be the beast in bed that you know she wants. Stay harder, last longer, satisfy her...and come as hard as you ever have in your life!

Customer Reviews

Total waste of money. I can't believe anyone would pawn this off to readers as wisdom. I wonder if

the author really is trained as is claimed or this is written by someone who just likes to write trash.

This book is great for both men and women. I learned about how to keep relationships together and the different ways between men and women. Amber Cole gives great advice and talks about five love languages. It gives great detail on how to treat a woman special. This book gives men great advice if they need help in this area. I would recommend this book to anyone that needs help in this area.

Interesting to read. Very informative and actually helpful! It has a few tips in it that can make life a little simpler for those who are novices and for those that want some new ideas on how to heat things up!

Picked up several good tips and will see how they work out.

Pretty good. Worth reading.
