I had to buy this book for my doctoral study, so I cannot tell you that I particularly like it. It is a textbook, nothing more, nothing less.

Good overview book. Works for grads and undergrads alike. It's better than cats. I'll read it again and again. So there.

Just what I needed for class and it was either brand new or very gently new! Thank goodness for book rentals otherwise I do not know how I would have made this class.

Great! arrived timely.
