Peggy is native to the Pacific Northwest and is a nationally recognized freelance artist, with worldwide publications as a platform artist. Her specialties include hand lettering and modern calligraphy, line drawing, watercolor illustrations and graphic design, while her skills range vastly in the world of creativity. Peggy is an online instructor and hosts an informational blog and maintains an instructional social media to inspire people to create.

Ok let me start by saying this review is based on flip through first impressions:1. CON - It's so friggin hard to read...like it's hurting my eyes to try to digest what is written on the pages because every single text in the book is in either a handwritten CAPITAL LETTER FONT, or in script!! And the lines spacing is very close together making it a strain to read. Like whattt?! I had to put the book down several times because of this frustration. If this book is ever reprinted, please consider using a standard sans serif font and then script/handlettering so it stands out. Really takes away from the

book. Less is more.² PRO - lots and lots of practical great quality content. If you can get past #13. Great guide for beginners to intermediate, with tutorials and practice pages Overall: I don't know if I'd recommend it because #1 is a huge distraction for me. But at the same time I really want to improve my lettering so I plan to keep it. Hope this helps :-)

Love everything Peggy does, and have been wanting this book for a long time. I am so happy with it, and have only scratched the surface! So much information and great inspiration. Here's an example of my faux botanical calligraphy (used for a Harry Potter challenge I'm doing) first go at it, after using Peggy's book

This is such a great purchase. I have been noticing all the cool hand lettering stuff on Pinterest and Instagram for a while now, and I've been wanting to give it a try myself but I haven't known where to begin. I was looking for a basic intro and this popped up. I've tried a few others but they seem too complicated and I never actually got around to it. What I love about this book is that it's so user friendly. I would recommend photocopying the 5 blank practice pages as suggested in the book cuz the pages are quite thin. The projects are cool though and I've started making a fun banner for my friend's birthday!

Such a fun book! It's very well put together, albeit a little busy. But LOTS of examples of stuff to learn/try, which is great. *DON'T get the Kindle version though. I thought it would be nice to be able to have it on my iPad, but the pages aren't formatted correctly so each page I had to zoom in just to read it! Plus I couldn't figure out how to print the practice pages either and those are kind of necessary! So I returned the Kindle one and bought the physical book.

Amazing quality - I am a brush lettering artist and I have not yet found a guide of this quality. So excited to start using it!

The most comprehensive, detailed guide to brush lettering I have found. Peggy is the real deal. This gives you many ways to execute each letter of the alphabet as well as many other helpful tips like photographing your work. Many helpful lettering pages for practice.

This is amazing!!! Holy moly, Peggy Dean is super talented! There is SO much info in here. I am

really thankful I bought it. My lettering has improved already and I feel very motivated to continue my lettering practice.

Wow! I love Peggy on Skillshare, and this book is just as informative! 153 pages of wonderfulness! I can't believe how detailed this book is-all for less than \$20! If I had to have a con - the only one would be the light gray used in some of the text-based can be a tad hard to see, but definitely is not a reason to forego this book!
