Kenkou Cross is best known as the author and artist of the Monster Girl Encyclopedia series.

Monster Girl Encyclopedia is done by Kenkou Cross, a prominent artist in the Monster Girl universe. The book details the discoveries of a wondering scholar in a fantasy world on these beings, and gives not only information but survival techniques and socioeconomic integration of

these monsters into the fictional world that is created. In fact, the first page of the book details one to keep an open mind and not to judge the monsters in this book based upon their habits. I for one saw an interesting world built upon the information contained in this book, that could be used in interesting ways; especially in writing or story. Each encyclopedia entry brings a bit of thought or immersion to the mix. Some of the monsters contained in this book can be met with horror, disgust, acceptance, fear and, rarely, admiration. While there is a bit of nuance in timing of this book or information in this book (As in, did this event take place recently or some long time later? How is the scholarly character privy to some types of information?) It is a solid good read. If you are a fan of Monster Girls, are interested in writing or experiencing fantasy worlds, or are ready to experience the newest trend in fantasy writing, this book is for you. If you are looking for pornography, this book has little to offer in that department (besides a couple of sketches) and one would be better off looking at your favorite pornsite.

As a fan of monster girls in general, whether it be art, animation or cosplay, this is a great collectors item. I enjoy the individual biographies, the art style and the lore behind the monster girls as a whole. The book itself is made well and feels durable. The 18+ is not as common throughout the book as you would believe if you haven't seen this content, but what it does have is certainly 18+. It's a great read. I highly recommend this to anyone with an interest in lore, great art and adult content.

I'll start by saying, I'm not the best descriptive writer okay here I go. This book is NOT for anyone 18 and younger (This is not porn) a few pics are suggestive sexually. The quality of this hard cover is great as well as the pages great effort and love was put in this book I feel. I love the descriptions very funny (to me at least) on how these monster girls habits and how some came to be, If your a MONSTER GIRL fanatic or fan I recommend this book its fun. I don't feel like I'll ever regret buying this book

Honestly, I had always read this as it was translated and posted online. Content Wise I give it five stars. It does mainly focus on the sexual side of each Monster Girl, but there are details throughout the book of the lands in which they reside, their hierarchy, their relations with humans as well as other Monster Girls. Even details about religions, geography, beliefs, superstitions and their intelligence ratings make it worth a read for those looking for creative inspiration.

I don't know if you can call this kind of product educational, but if you need some background information about monster girls from your favorite manga, then this is definitely for you. This book gives you detailed information on various monster girls in a cheeky sort of way that will give you some chuckles. The art work is good through the book, but beware there is some nudity so if you are considering buying this for your little tyke or grandtyke then keep that in mind. Overall it is a pretty good read and would recommend for anyone old and mature enough not to have their life ruined by some drawn topless women and racy language.

The book is rather robust and discrete, making it easy for you to read without eye strain, but still portable enough to store away and go on with life. Despite shipping being difficult with the tracking number being 10 days off track, the package still arrived within the store's time span.

This order came in almost a whole month earlier than the expected delivery date! This book is fantastic from both an artistic point of view and how it feels like an authentic encyclopedia. This book is meant for **MATURE READERS ONLY**. Don't mind any reviews that say you won't find pornographic or sexual content here because it is full of that (which is very welcomed. Just a warning for those who think this is anything but). I highly recommend it for fans of monster girls and anime! Beware the alluring beautiful monsters that await you in this book. ;)

The ultimate anime smut setting. Something for everyone abounds in this wonderfully articulated sexy guide for the adventurous monstergirl connoisseur. 4 stars because the centaur entries don't contain pictures of glue buckets.
