## Customer Reviews

The first reaction to this adorable book?? My boyfriend got mad that " his dog " was on the cover! He wants a bulldog real bad!. Anyway, I loved the recipes in this book. They are simple and healthy, with ingredients that I probably already have in the pantry most of the time. They also explain why the ingredients are good, and what ingredients to be careful of. These are Thanksgiving oriented recipes with a good variety of options. Honestly , I think people could eat these too... Maybe I won't mention where I got the recipes! I can't wait to see the Christmas edition. Doggy Verdict. " Mmmm Woof!" The little one approves too.

I totally recommend these easy-to-follow recipes. Preparing and baking treats for your dog gives you complete control of what they are eating.

Peanut butter banana truffles? Yes please! This book makes whipping up goodies for your dog simple and easy. The recipes are health-oriented and varied, yet have many ingredients in common with each other, which makes shopping easier. The author's love and enthusiasm for dogs comes through every page.

I have only tried a few recipes so far but the dogs devour the treats. I always have to stop the little kids from feeding the dog table scraps on the Holidays but this year the kids are going to get these treats to feed the dogs instead. Lets hope it works!
