Basic Bowl Turning With Judy Ditmer

Synopsis

In this full color, beautiful new work, Judy Ditmer shares her extensive knowledge of bowl turning with the novice turner. Beginning with the preparation and seasoning of the bowl blank, Judy takes the turner step-by-step through the finished product. Along the way she covers the proper use of tools, design considerations, and safety considerations for the turner. The techniques she shares will have an immediate impact on the readers understanding and practice of woodturning. While addressed particularly to those who are new to turning, Judy's years of experience come through and will be valuable to turners of all levels. The project in the book is a beautiful salad bowl. Step-by-step photographs cover the process from beginning to end, including the construction of necessary jigs for the lathe. A gallery will spark the imagination of the reader and begin to reveal the possibilities of turning.

Customer Reviews

Judy Ditmer has a way with words, and her expertise makes this basic turning book one that is a pleasure to take home. Full of many photos, it is easy to follow what she is saying, and she thinks of many 'do-nots' as well as 'do this' lessons. From small items to large, from sharpening to harvesting logs to necessary equipment and sanding techniques, Judy Ditmer makes the lessons easy to follow. Includes home-made jigs and lots of small tips for success. Highly recommended.

Widely obsolete. In the other hand Richard Raffan's books are plenty of XXIst century information,

designs and techniques. Poor photos and texts.

great book and good service

This is a fine addition to any woodturner's library. Judy has taken great lengths to present the process of bowl turning in a concise, easy to understand and follow book. Photos are clear, plentiful and thoroughly illustrate her approach to bowl turning.

64 full color pages, 5 page gallery. Color step-by-step directions for making 1 big bowl. I don't think this is for the beginner, it still scares me (even without the bleeding finger safety tips). Good techniques and I learned a lot, but it was too involved for my first bowl. I'll keep it in my library for later. Contents: Sharpening, Starting from a log (chain saw required), roughing out green wood, [wait while wood dries], turning the bowl, sanding with discs using a drill, building a jig for turning the foot, finishing (includes Judy's Low-tech, fun-n-easy-to-make, so-nontoxic-you-could-eat... finish recipe).
