Customer Reviews

Spanish 1 Activities Manual (2nd ed.) offer a variety of exercises designed to expand students' Spanish knowledge and comprehension. The activities manual presents 12 lessons divided into three separate sections: listening exercises, textbook exercises, and CD script exercises.-BJU Press

I was surprised to see two bad reviews before mine. I have used this curriculum as a student in my Spanish class and have taught from it as well. With any curriculum, you should have a Spanish-English dictionary handy (or use wordreference.com or other online dictionaries). I do like to skip around with this book, but it's a fine curriculum as long as you have a dictionary (which you do, as long as you have internet) and is especially good with a teacher or class.

I have been surprised to see the negative reviews on this product. I have used this book in teaching spanish both in classrooms use and in tutoring. I have found it interesting, attractive, and organized in it's way of teaching. I really like the reference charts in the back. I tried another more popular High

School Spanish course, but I am back to Bob Jones. And, yes, each student will need a dictionary.

Would buy again :-)

love the Christian focus; useful exercises/vocab

The book gives numerous illustrations. However, frequently illustrative sentences are presented using grammatical structure or vocabulary words that the students have not been exposed to. That's discouraging to the students.

Useful, albeit a lot of stuff to fit into the schedule.

When one buys a used text/school book, one gets a (hopefully) used book. Not pristine but serviceable. A case of you get what you pay for.

Not what I consider beginners.
