Even though it's a small country, there are a lot of things to do when we're travelling in Singapore. This book really provides me with a lot of things that I need to know, and also tell me where is a must place to visit in there. I've been there a long time ago, which basically means I forgot almost everything in there. So I need a travel guide before I'm going there, which I'll go in the near future. Luckily I found this wonderful guide that is really helpful. It explains really well, with a lot of cool looking pictures. So I definitely recommend you to read this guide before travelling there. Five stars!

Wonderful book. Very well written and very descriptive and informative! I've read a lot of books from this author, and they're all great reads. After reading this book, you'll definitely know where to go when you visit each country. I haven't been to these places myself, but now it's nice to know where to go in the near future. Singapore will definitely be my next visit. I like to travel at least twice a year. You won't be disappointed with this book and this author. Very good read, and I strongly recommend.

I just downloaded this book and the other books in this series on my kindle and I really enjoy reading them. I think that would be good to have them while traveling so each time I can refer to

them.
