## Customer Reviews

This is an outstanding travel guide that covers pretty much everything there is to know about, see, or do in the UK: from its rich history and specific traditions, to the main sights, cities, and tourist

attractions. The book is well-written, well-organized, and quite comprehensive, so I strongly recommend it to anyone who intends to visit Britain or wants to learn something about its lifestyle and culture.

I found this travel guidebook so helpful & well written. Actually, I had a huge interest to learn & know more about the Great Britain. Throughout this read I have come to know various major cities, traditions, sights and hotels in there. Though I had read various article on the same topic but all the info that what I got from here were far better than all other stuff I found before. Of course it was a worth purchase and I honestly recommend it to all interested travelers or readers.

Travelling is really fun to do,going to places you never been and exploring the globe.This guide book is really perfect for you if you will travel to Great Britain. This is the best guide book for you, very detailed that will let you know all of the coolest things to do, see, and eat around the country,including popular destinations and more. A very concise and informative guide book.

This guide seeks to present the unmissable features of the United Kingdom, organised by way of what it appeals to us. This book begins with a great overview of Great Britain a Green and Pleasant Land. After reading this book I have listed a lot of attractions or places I wanted to visit when I get there.

One thing I like about Great Britain:it has wide variety of great places for every traveler. It has great museums, peak highlands, great nature, the Royal Palace, and more. What ever interests us, Britain has it.One of my top pick when my parents allow me to travel.

I really enjoyed reading this book. Good short and precise information for a visitor. We are planing to visit UK next Summer. I recommend this book. Great Guide Thank you!

Wonderful Seller; Will order from again :0)

Don't waste your money on this cheap book. It is a bad, broad overview and gives you pointers that are obvious.
