Kumihimo Jewelry Simplified: Learn To Braid With A Kumihimo Disk

Synopsis

This is the second Kumihimo book by Rebecca Combs. This book will focus more on the beginner and shares some of the most popular features that made the first book a runaway success: conversational voice, skill-building format, Kumihimo math, and continuing to use the inexpensive Kumihimo foam disk. Kumihimo Simplified includes 5 new braids: 8-warp basket weave, 16-warp rectangular, 16-warp hollow basket, 8-warp half-round, and 8-warp square. Beads will be included within the braids where appropriate, however, the focus will be straight braid. Special sidebars will include Creative Closures - 5 different ways to finish Kumihimo braids, besides the common gluing of endcaps.

Wonderful book with terrific instructions and beautiful pictures.

Lots of pictures, lots of detail, just what I needed.

Actually found some new styles of Kumihimo, not just a beginners book.

This author is great, creative and provides very helpful directions.

Great book learning a lot of new stuff

Looking forward to sitting down and working with this beautiful book by one of the First Ladies of Kumihimo. Very well illustrated

Great directions!

tis a good book with great patterns
