You couldn't peek inside this book so I decided to take a shot and buy it. I was somewhat surprised by the format. It is divided into four separate sections: Bass Recorded Version Songs, Bass Riffs, Solo Bass, Easy Bass Melodies. Songs that have a signature bass riff are in the Bass Riff section. Solo Bass have a bunch of classical and jazz numbers which you can play in the lower registers like

Canon in D or Pink Panther Theme. Amazing Grace or the Beatles Blackbird? I haven't attempted them but want to. They might sound cool but I'm not counting on it. Easy Bass Melodies has songs like "Bridge over Troubled Waters" - not the tab but the melody down an octave. This is only good for a beginner to learn the fretboard and have some success. I would think that a player with a year or more experience will find no use for that section. If it was easy basslines then you could play along with the recordings and have fun while learning something useful so that section is a disappointment to me. This is the ultimate beginner bass Tab. Lots of useful songs at various levels so that it can take you from 3 months to your second year of playing. So if you're under a year with Bass then add a star to the rating. If you've been playing a bit longer and are comfortable with reading notation and tab I think the three stars are more realistic esp if you need a few of these songs and your ear isn't that precise to take it off the record (alas!) Here are the songs: Song List: All My Loving Amazing Grace Autumn Leaves Badge Blackbird Blowin' In The Wind Bridge Over Troubled Water Can You Feel The Love Tonight Canon In D Cello Suite I The Chain Chameleon Cissy Strut Come As You Are Come Together Con Alma Crazy Down In The Tube Station At Midnight Dust In The Wind Every Breath You Take Flashlight Give It Away God Bless America The Godfather (Love Theme) Groove Is In The Heart Hallelujah He's A Pirate Head Like A Hole Heaven I Walk The Line I Want You Back I Wish In A Sentimental Mood Jesu, Joy Of Man's Desiring Lean On Me The Lemon Song Let It Be Let's Get It Started Let's Go Crazy Love Me Tender Low Rider The Munsters Theme My One And Only Love N.I.B. Nuthin' But A G Thang Oh, Pretty Woman Peter Gunn The Pink Panther Portrait Of Tracy Pride And Joy Rapper's Delight The Real Me Rock On Rock The Casbah Run To The Hills Sabotage (Sittin' On) The Dock Of The Bay Slow Ride Stand By Me The Star Spangled Banner Stir It Up Summer Nights Super Freak Sweet Child O' Mine Sweet Emotion Taxman Teen Town Trippin' On A Hole In A Paper Heart Under Pressure Yesterday

I'm very new to playing the bass and purchased this book along with a few other Hal Leonard beginner bass songbooks. This Ultimate Bass Songbook is okay. I'm giving it 3 stars because while it does have a lot of songs, very few are in the same key as the original recordings so playing along with youtube isn't an option. It's only when my guitar-playing-husband agrees to practice with me that the book comes in handy.

This was a gift to my son, who says it's great.

Only some songs fully transcribed although there is a good selection of easy to hard. too much of it

consists of a lot of easy melodies or highly abridged arrangements which could be fun if you like playing tunes rather than authentic bass lines (i don't so only half the book is relevant to me), riff section contains some classics but all are short 4 bars snippets.

Good tunage! Grooves hard

This book is misleading. The publishers should clearly specify that many tabs are incomplete . For more than 8 songs the tabs are not complete and just gives the intro or the first few bars- Come Together, Give it Away, NIB, Run to the Hills are all incomplete. It is a complete waste of money. I am not sure if there is a refund for Kindle format books.

fair book

Excellent book! Has a lot of good songs in it!
