# Covetous: A Dark Paranormal Romance (The Marked Mage Chronicles, Book 2)

## Synopsis

\$0.99 Limited Time Release Sale! Price will go up to \$3.99. Heaven Wants Me Dead. Hell Wants Me As Their Weapon. And I'm in Bed With A Devil. I was just your average seventeen-year-old girl, until I was Marked. Some may sell their souls; mine was taken. Not only are angelic hunters out to kill me, but Hell's deadliest Mage the devilishly charming Crown Prince of Lust is just as desperate to get his hands on me...again. No, he doesn't want me dead. This seductive trickster only has one thing on his mind: making me his new blushing bride. He can call me his "mate" all he wants. I'm not about ready to sign my soul away into eternal damnation, no matter how gorgeous he may be. But after two months on the run, I realize I can't escape the ugly truth. If I wish to fight another day, I may just have to make a deal with the worst kind of devil. The kind that loves me. I thought I knew what rock bottom was, but this is only the beginning. As the great poet once said, "Hell is empty and all the devils are here."

## Customer Reviews

Heart pounding rapid action with our heroine fighting divided loyalties and attraction. The prince of

hell turned out to be a totally different then previously implied. The good guys aren't good and the evil guys are not bad. The fights and narrow escapes, the sacrifices and the devotion are deeply affecting the arc of the story.

I had a hard time following things at the beginning as it felt like it jumped right in to a story already being told. I felt like I had missed a few chapters! But after continuing on, the story and flow got much better. Interested to see where this series goes!

I have never read a series before where I have no clue who are the good guys are and who are the bad guys. Every time I think I have it figured out something would happened that would again leave me clueless yet still enthralled with every written word. Every question I had at the end of the first book was answered in the second, but this book also gave me a ton of new questions. We find out who Kat, Blaine, and Reese parents are in this book and it makes you glad that they grew up away from them. Aren't parents supposed to love you and help you? Story picks up with Kat being able to avoid Blaine and all demons and reapers for two months while trying to resume a normal life; until a sexy new neighbor moves in next door. I was so excited when Blaine caught up to her, I never thought I would be one to cheer for the bad guy but then again Blaine is seriously hot with the whole "you are my mate" attitude. Reese and the professor are trying to help Kat break the mating bond while Blaine is trying to protect her from the demons, hellhounds, reapers and the Angel of Death that want her dead. Kat is such a likable character because she acts what I think a normal teenager girl would. She jumps to conclusion at everything that happens, and she is usually wrong. She does what she needs to do to prevent the final stage of completing the bond while also trying to remain

"good". I like how she tells Blaine she wants to stop being a victim and learn to fight back. Blaine is a complicated character. I do not know if he is good, or if he is evil; if he is lying to Kat or protecting her from the truth. His devil may care attitude and sarcastic comments really had me laughing out loud a lot in the book. "friend of yours" "do you really think he would be eyeing me like a Human Happy Meal if it was?" First time ever I am cheering for the bad guy. Also I was in tears when we get the car crash where Kat dies in the first book from his point of view. That chapter wow. Reese is still a mysterious character but you learn more about him in this book that makes you feel sad for him and also makes you wonder if he isn't who he says he is in regards to helping Kat. Which side is he really on and why does he know just

the right amount of information to keep Kat informed enough to keep her alive yet not enough to keep her safe. This book has everything I like in a series; suspense, new characters, intrigue, sexual tension, and just enough information to explain what is really going on while still blowing your mind with "did not see that coming" scenes. I highly recommend reading this and wonder if you too will want the bad guys to win. Disclosure: I received a free copy of this book in return for an honest review.

Wow. Just 'wow'. That was incredible. SOOOO much character growth. I have to say I always have a tendency to root for the bad guy. This book has me salivating for a Val spinoff series/book. But the amount that you learn about ALL the main characters in this book is crazy. SO much happens. I love the growth of Kat and Reese. And Kat and Blaine. And Val. I did kind of feel like Carly being drug along for the ride was a little 'just for a spinoff setup', because otherwise she didn't feel particularly important. I would have liked for her to have been more of a connection/reminder of the "normal life" before all this happened. I think that would have served as a good juxtaposition for all the crazy that goes down in this book. I LOVE that KAT isn't afraid of a fight. Though, I do wish she was coming by it of her own accord, rather than it being "from" Blaine. But I get it. Also, when are we going to get a REAL taste of what this Prince of Lust is all about. I mean, Reese has been more hands on than Blaine. I'm so excited for book 3.

I just finished reading and I'm literally speechless and have an extreme book hang over! Insidious put me in a book slump for weeks, I couldn't pick up another book. This sequel was action packed, easy to follow, and incredibly simple to get caught up in! I literally could not put it down! Well done Victoria on another fantastic book! I'm literally dying for book 3! I highly recommend this author and this series!

I had read so many books in between the first and second I wasn't sure I would be able to jump right back in it but WOW was I wrong. This book is somehow even better than the first, and can I just say, "REESE WHO?!", am I right friends? This book had me falling head over heels for the bad boy at every turn. The author does a phenomenal job at redirecting your loathing of certain characters and no doubt, I'm feeling exactly how she intended about every single character she has created. There were a few minor grammatical errors, and normally that would warrant a star lost for me because it takes me out of the setting, but not even that could deter me. It is a solid 5 stars for me friends!!

Typically the first book in a series is one of the best, however this is not the case here. Pacing is great and the interactions between the characters aid this. Interesting story that keeps you drawn in the whole time. The twists, while not all together super unpredictable, are well played. Definitely recommend.

I have thoroughly enjoyed reading this series and can't wait for the third book. I'm so glad that Blaine's character has depth. I'm totally rooting for him.
